<sup>1</sup> Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury however, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. This "effective-yield" method of computing the average interest rate on the public debt will more accurately reflect the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

<sup>2</sup> Computed on true discount basis.  
<sup>3</sup> By Act of October 27, 1972, the statutory debt limit, established at \$400 billion, was temporarily increased to \$465 billion through June 30, 1973.

<sup>6</sup> Dollar equivalent of certificates issued and payable in the amount of 645,000,000 Swiss francs.

#### AUTHORIZING ACTS

<sup>a</sup> All interest-bearing debt was authorized by the Second Liberty Bond Act, as amended.

<sup>b</sup> Issued pursuant to Act of July 31, 1945, as amended, 22 U.S.C. 286e.

<sup>c</sup> Issued pursuant to Sec. 832(e), Internal Revenue Code of 1954.

<sup>d</sup> Issued pursuant to Secs. 780-783, incl., Internal Revenue Code of 1939.

#### TAX STATUS

<sup>e</sup> Treasury bills are not considered capital assets under the Internal Revenue Code of 1954. The difference between the price paid for the bills and the amount actually received upon their sale or redemption at maturity for Federal income tax purposes is to be treated as an ordinary gain or loss for the taxable year in which the transaction occurs.

<sup>f</sup> Income derived from these securities is subject to all taxes now or hereafter imposed under the Internal Revenue Code of 1954.

<sup>g</sup> Where these securities were issued wholly or partly in connection with advance refunding exchanges, the Secretary of the Treasury has in some instances declared, pursuant to Section 1037(a) of the Internal Revenue Code of 1954, that any gain or loss on the securities surrendered will be taken into account for Federal income tax purposes upon disposition or redemption of the (new) securities. For those unmatured issues included in advance refundings with deferral of recognition of gain or loss see Table 5, Public Debt Operations, August 1967 through December 1970 issues, of the monthly Treasury Bulletin or Table 29 of the statistical appendix to the Secretary's Annual Report for the fiscal year ended June 30, 1972.

<sup>h</sup> Where this security was issued in connection with the advance refunding exchange, the Secretary of the Treasury has declared, pursuant to Section 1037(a) of the Internal Revenue Code of 1954, that any gain or loss on account of the exchange may be taken into account for Federal income tax purposes either in the taxable year of the exchange or (except to the extent that cash was received) in the taxable year of disposition or redemption of the securities received in the exchange. Any gain to the extent that cash was received by the subscriber (other than an interest adjustment) must be recognized in the year of the exchange. For those securities included in the advance refunding see Table PD0-7 of the monthly Treasury Bulletin beginning with the February 1972 issue.

<sup>i</sup> These securities are exempt from all taxation now or hereafter imposed on the principal by any state or any possession of the United States or of any local taxing authority.
